Procedures for the aptitude test via video as proof of particular artistic aptitude

The aptitude test via video allows the evaluation of whether the applicant has the required technical and artistic competences necessary to be admitted to the work-study Master's Degree Programme Dance Teacher at the Palucca University of Dance Dresden.

These competences are specifically:

- Body control and precision (physical build, precision of technical elements, attention to dynamics, nuances, use of space)
- Mastery of the musical periods, musical tempos, musicality
- Artistic sense (artistic quality of movement, interpretation, demeanour, and presentation)
- Ability to articulate the technical elements corresponding to the chosen field of focus.

The required standards thus correspond to the required standards for both fields of focus (Ballet or Contemporary / Modern Dance), to those achieved by graduates of a professional training programme, for example, at the Palucca University of Dance Dresden.

As aptitude test, a video must be submitted which demonstrates one of the études presented in the Palucca University of Dance Dresden YouTube channel. The étude should correspond with the chosen field of focus (Ballet or Contemporary / Modern Dance) and not exceed 3:00 minutes. See also:

<https://www.youtube.com/playlist?list=PLE75782A5628B28C6>.

If the applicant can provide plausible evidence that, due to a prolonged or permanent physical disability or a chronic illness, he/she is unable to perform the étude, the étude can be demonstrated¹ or an alternative evaluation of artistic aptitude is possible.

¹ A demonstration is to be understood as a dance with lower amplitude, performed with a maximum of quality, precision and clarity, especially with a view on coordination, musical-scenic direction, intention, nuances, dynamics and character. Virtuoso movements can perhaps be simplified, but the picture presented must correspond as closely as possible to the relevant variations.
